

Our school: Eugen-Bolz-Gymnasium

By Ozan, class 5d

Our school was named after Eugen Bolz. Eugen Bolz was born on December 15, 1881 in Rottenburg am Neckar. He was a German politician and died on January 23, 1945.

My classroom is in this old building. Unfortunately, this building will soon be demolished. We'll have to see where we're going then.

Here you can see our classroom A17. I like the classroom very much, although it is very old.

Our school: Eugen-Bolz-Gymnasium

The school yard is very big. But it has to be, because the school has over 900 students.

The entrance to the bunker is in the library. You can also do a lot of research there.
