

The best week ever!

On a Monday in July the classtrip to the Feldberg started. We went early to the trainstation in Rottenburg. We met and it was a great feeling! We stayed there and talked 30 minutes before the train came. We waited for the teachers and they came. We went in the train and drove away from Rottenburg. It was a really cool ride in the train. After 30 minutes we went out of the train and went into the next train. After the train we went in a bus to go to the Feldberg. We went out of the bus and saw the Feldberg: it was really beautiful on the Feldberg. We went to the Jägermatt, our hotel, and to our rooms. After that we had our first activity and it was a city rally. It was great because we had a nice city trip. After the rally we went to Jägermatt, played games and drank much lemonade. In the afternoon we played games again and waited for lunch. For lunch we ate Kaiserschmarrn and other things. After lunch we played 1 hour games and than it was bedtime.

In the morning on Tuesday we woke up and waited for breakfast and talked to the others. It was really different to sleep in another place. We ate bread and cereals and drank cocoa and tea, too. After the breakfast the 8 hour walk began. The start was fun but after 3 hours it was really difficult. On the start we climbed a mountain and saw cows. We went to the highest point of Baden-Württemberg and walked the other side down. Then we saw a little restaurant and many boys bought ice-cream. We continued our walk and walked in the Schwarzwald to the Feldsee. We made mini groups and went out the Schwarzwald. After 8 hours we made it and went to the Jägermatt. We played Quaterd, Werewolf and other games. It was lunch time, we ate, after that we played games and went to bed.

On Wednesday morning we had our breakfast and walked to the Haus der Natur. We had another walk but it was not so long. A Ranger walked with us and explained us the animals and rare animals that live here. We went back to the Haus der Natur. We must do a test and then we got a junior-ranger badge. We made an aviary and other cool things. Then we went back to Jägermatt and ate our lunch and went to bed.

On Thursday we woke up and ate our breakfast. We went to the Haus der Natur again and walked with an woman in the forest to catch insects. We caught spiders, worms and other insects. We went back to the Haus der Natur and looked at these insects with microscopes. After that we went back to Jägermatt and ate our lunch. We had 2 hours to play games. After the games we met outside to tell us blackstories. We went to bed after the blackstories.

On Friday we woke up and ate breakfast. We had 2 hours time to pack our things. We went all together to the busstation to drive home.
