

## Schullandheim on top of Baden-Württemberg

I was really nervous on the day before we went to Feldberg. At the beginning of the trip, we travelled by bus and train, four hours. It was very long. We got there and we were so happy. Before we moved in we got the key. After we relaxed, we made a rally of Feldberg. It was pretty cool. We had dinner. The dinner was not the best but it was OK. We played games in the evening. We had to go to bed and the whole class was dog tired.

The second day we stood up about seven o'clock. We wore our hiking clothes. Then we had breakfast it was good. After that we made our lunch for the whole day. We made a walk of 17km. On the way was a hut made of wood, a few students did buy an ice cream or a drink. There was a very nice fountain for refreshment. One hour later we saw a playground. We were there two hours. After that we walked the rest of the way. We saw the Feldsee, at the Feldsee we walked home alone. So, we were at the hotel and we were so hungry but the dinner was not before seven o'clock. We waited so long of the dinner. We were so lucky because of the good food. We didn't sleep at the time we usually go sleeping.

The third day we looked at insects. We collected the insects in a box. We walked about three hours. After we came to the House of the Nature we went in a room with tables and chairs and microscopes. We looked at the insects and we asked in case we had a question. It was very nice and it was funny. One day after we went again to a walk with ranger Rasmus. We saw very nice animals and ranger Rasmus told us very important things. We walked four hours. Of course, we made breaks. When we were at the House of Nature, we had to write a test in our groups. On the way we saw the Feldsee. It was dangerous because in the Feldsee there is a special plant that we should not destroy. The day was hard and my class and I relaxed in the evening. The days when we walked were so good, cool, nice, and hard. But the evenings we played games. They were so cool too. The food at this day was also not the best. We were not allowed to lock our door because the teachers told us about an old lock with the danger to be not able to unlock it anymore. I cannot believe this, because my cousin was in the same room one week later with her class and she was allowed to lock and unlock this door and there were no problems.

What do you think were the highlights? Of course:

Playing games with the classmates

Playing the game called "werewolves"

The trip back home when we told us about the "story of George"

At the end of the trip, we moved out of the hotel and we travelled back home by bus and train. The connection train was late and we had to wait one hour in Rottweil. In the meantime, we petted the donkeys. I liked the school trip very much and worn-out lock that does not work correct anymore. I found it bad because we didn't
