

## Feldberg rules

On a sunny Monday in July the whole class met at the train station in Rottenburg. I was a bit sad because I wouldn't see my Parents for a week! The train came and we needed to say goodbye. Luckily, no one cried. We got into the train and no one found a seat. We changed Trains 3 Times. At the first train, Anna and I sat together on the floor. We had a really long talk. Then we got into the next train. I sat alone. This was a bit boring. In the third train, I was finally with my friends! It was the longest ride like 1 hour. It was really fun until a strange man came to us and said we need to wear a mask, even if we were eating. That was fun. Because we did not really care. We were still eating.

He did not see us. Luckily. Then we went to the bus. We drove 15 Minutes and I sat with my Friends and Miss Neher-Breckner. Then we finally arrived. I was really excited how my room looked!

Lilli and I were in a room together. After everyone was finished with unpacking their stuff, we got to the eating Room and talked. After that, we did a rally with the whole class. In the evening we were all dog tired.

The next day we stood up at 7 o'clock. We all (except for the Teacher) did not know what we are going to do. After we had breakfast, Mr. Lüdtkke told us that we are walking 8 hours. We were all shocked. 8 hours!

That is way too long! However, we did it with many breaks. It was really long and everyone's legs hurt but it was fun. Because we talked and talked and talked. And I walked at the end with my best friend Lili alone.

After we arrived, we changed into comfy clothes. Then we ate something. It was delicious! After we ate, we played games like Werewolf. It was really fun! The whole week we had entertainment. The best entertainment was that we walked into a forest and looked for insects. Lili and I found a worm together. We named him Engon. After we went back and examined Engon under the microscope. After a while, Engon fell apart and died. Rest in Piece Engon! After we let him out, we found the other side of Engon. Alive! We were so happy that the other half of Engon was still alive.

My Highlight was the drive back. Because we found a seat at the beginning of the train. No one was sitting on the chair to drive the train; we drove in the other direction by the way. But every time we said: „Chair move! “ It moved! We named the Ghost “George”. Hope you have a good life in your train George! After the week on Feldberg we finally drove back! I was really tired, and just wanted to go back home. After 4 hours travelling, it was exact like the way we came to Feldberg, we were finally in Rottenburg. I was so happy to see my parents again! I had a great Time at the Feldberg. I hope we are all doing something like that again.
